NOT BLAMED FOR DEFECTIVE LIGHTING.

Seckner Company Officials Make a Satisfactory Explanation-Trouble at Plant Remedied.

President E. G. Bruckman and Attorney John H. Drabelle, for the Seckner Contracting Company, yesterday morning appeared before the Board of Public Improvements to reply to the complaint of Supervisor of Lighting O'Reilly that the company had failed to light the electric are lamps on time in the downtown dis-

trict. They said that there had been some trouble, owin; to accidents to the bollers on the days specified, but new boilers have since arrived and the lamps have been lighted according to contract ever since. Three beilers are now in operation, and they will be duplicated as soon as possible. After November 15 there will be no further difficulty, as all the boilers will then be in place, and the company will be prepared for all emergencies. The explanation was satisfactory to the city efficials.

Mr. Bruckman expressed displeasure because the board had sent the company a notice, considering conditions. His company purchases from another concern the power for its motors, but generates its own electricity. Vouchers in favor of the Missouri-Edison Electric Company were approved, and thus this company's affairs under the old lighting contract were closed,

CHARLES M. HAYS. New President of the Southern Pa-cific Hailway.

Railroad this afternoon confirmed the report that Charles M. Hays would assume the new office about January i, and that he would have headquarters in San Francisco. Mr. Tweed added that the other officers of the Southern Pacific would probably retain their present positions.

Charles Melville Bays may be said to have been a St. Louis product, so far as the commencement of his successful rail-road career is concerned. He was born in Rock Island, Ill., in May, 1866, and entered into railroad service in St. Louis in 1872 with the passager desagriment of the old into railroad service in St. Louis in 1873 with the passenger department of the old Atlantic and Pacific. He remained with that company in various capacities for fourteen years, being auditor's cierk and a clerk in the general superintendent's office. In 1877 he became secretary to the general manager of the Missouri Pacific, and from 1884 to October, 1885, was secretary to the general manager of the Watasis, St. Louis and Pacific. From October I, 1886, to July I, 1887, he was massisiant general manager of the same road. "Negotiations for the transfer of the Southern Pacific lines in Oregon to the Northern Pacific Railway Company have been on for some time. They were litter-rupted by the death of President C. P. There is reason to believe, however, that the transaction will eventually be carried through.

"The Northern Pacific's desire to secure the Oregon lines of the Southern Pacific is believed to be based on the fact that it has great faith in the Pacific Northwest and wishes to get as much of the business as possible. The Southern Pacific lines in Oregon comprise about 650 miles of railroad."
